## **Stacking Frame for Pallets 1200 x 800 mm**

*Suitable for all Utz plastic pallets  
and wooden Euro pallets*

## Light stacking frame with high load-bearing capacity

- Suitable for the most common plastic and wooden pallets in Euro format 1200 x 800 mm.
- The hygienic alternative to the wooden stacking frame as no impurities caused by splinters and therefore no risk of injury.
- High load-bearing capacity of the frame despite its low weight of only 5.8 kg.
- The frame can be folded and is therefore easy to store.
- Space saving for empty transport: three folded frames lying or four folded frames standing fit into one opened frame.
- Optimum support on the pallet due to strong corner brackets.
- Secure frame-on-frame stacking.
- For increased safety, the frames can be connected with cable ties.
- Optional mounting of label holders or plate for adhesive labels, printings or with studded surfaces.
- Optional fortification of lateral side walls with metal reinforcement.

Suitable for plastic and wooden pallets

Connected with cable tie

Suitable for all Utz pallets, wooden pallets and other common plastic pallets in Euro format.
