Stacking Frame for Pallets 1200 x 800 mm

Suitable for all Utz plastic pallets and wooden Euro pallets
• Suitable for the most common plastic and wooden pallets in Euro format 1200 x 800 mm.
• The hygienic alternative to the wooden stacking frame as no impurities caused by splinters and therefore no risk of injury.
• High load-bearing capacity of the frame despite its low weight of only 5.8 kg.
• The frame can be folded and is therefore easy to store.
• Space saving for empty transport: three folded frames lying or four folded frames standing fit into one opened frame.
• Optimum support on the pallet due to strong corner brackets.
• Secure frame-on-frame stacking.
• For increased safety, the frames can be connected with cable ties.
• Optional mounting of label holders or plate for adhesive labels, printings or with studded surfaces.
• Optional fortification of lateral side walls with metal reinforcement.

**Light stacking frame with high load-bearing capacity**
**Stacking frame**

**External dimensions:** 1200 x 800 x 200 mm  
**Internal dimensions:** 1141 x 742 x 200 mm  
**Weight:** 5.8 kg
